

# Community Bulletin

January 2015 | Issue 24

## Hume Coal Presentations

The team are always available to present and are already scheduling presentations for 2015 so if you or your club or organisation would like to enquire about a presentation from the Hume Coal Project, please contact the Community Liaison team by emailing [info@humecoal.com.au](mailto:info@humecoal.com.au)

## How you can find out more

The team can also be reached at 4868 1233, or by visiting the Community Office on the corner of Argyle and Valetta Street in Moss Vale.

Our office is open weekdays for the public to drop in and find out more information on the project in an accessible location.

The team really value listening to our local community regarding their views and questions about the project, so why not pop into the community office and have a chat with the team.

If you can't make it to the community office you can find out more at [www.humecoal.com.au](http://www.humecoal.com.au)

## The Hume Coal Apprenticeship Program

The Hume Coal Apprenticeship Program is a new initiative which has been established to support the training and development of the Southern Highlands Community. Hume Coal is actively looking to promote and support local businesses, industries and education facilities.

Round one of the Hume Coal Apprenticeship Program has now commenced, funding the education and training of new apprentices up to the value of \$250,000 per annum.

If you are interested in applying, please email [m.thorpe@1300apprentice.com.au](mailto:m.thorpe@1300apprentice.com.au) with a cover letter explaining what type of apprenticeship you are interested in and why. Make sure to include your resume, as well as any supporting documentation available. You may apply for a position at any time through the year. Applications are open to anyone aged 16 and over.

All applications will be considered, however, due to a high number of applications, limited candidates will be contacted.

## Fast Facts

We are taking an environmentally responsible approach to coal exploration in the Southern Highlands.

We are focused on creating a sustainable mining operation – using best practice techniques and pride ourselves on being different and better in all aspects of our work.

We will continue to update residents on key operational milestones through our bulletins and our website.

We're conscious of the role we play in the local community and we're here to make a positive social and economic contribution.

We think it's important that people have all available information on the project so they can make up their own minds.

We take very seriously our responsibility to ensuring there is minimal impact on water supplies in the region.
