

HUME COAL CHARITABLE FOUNDATION

The Hume Coal Charitable Foundation is currently accepting applications for the first round of funding in 2018. Each year the foundation supports local organisations which focus on education, indigenous programs and not-for-profit pre-school child care.

If you are interested in applying, download an application form at www.humecoal.com.au/community.

You can email, post or drop off the completed form, but don't delay as applications for round 1 close on the 30th July 2018.

TRAINEESHIP AND APPRENTICESHIP PROGRAM

The traineeship and apprenticeship program, which forms part of the Hume Coal Charitable Foundation, has welcomed its 17th participant in 2018.

All of the students who have participated in the program have gained full time positions as a result of their dedication and commitment.

Trainees and apprentices have been supported across a range of industries, including landscaping, signwriting, childcare, financial services, carpentry, administration, electrical services, engineering – and many more.

If you are interested in applying to join the program or become a host employer, please call us on 02 4869 8200.

We'd love to hear from you!

BERRIMA RURAL FIRE SERVICE

Hume Coal is proud to have been given the opportunity to support the Berrima Rural Fire Service in 2018.

Berrima RFS said that the donated items would help the volunteers undertake their work more efficiently and effectively when responding to an emergency.

Hume Coal was proud to meet the wonderful members of the Berrima RFS and thanks this group of volunteers for the amazing work they do protecting and serving our community. A very big Well Done to them.

STAFF PROFILE – JOSHUA REID

“I’m Josh and I work as the Environmental Coordinator at Hume Coal. No two days are the same which makes each day an exciting new experience. My role includes the collection of environmental data from our monitoring sites, including dust, groundwater and weather data. This information is used by our team to understand our environment and how it varies under different conditions. Some other tasks I undertake in my role include supervising contractors, analysing data, assisting with project approvals. My role brings numerous challenges however I enjoy the methodical and precise approach which is necessary for me to deliver on a daily basis.

I studied Geoscience at the University of Wollongong, and aside from it being my local university, it offered the degree I was after and had reputation for academic excellence in the area I wanted to study. Hume Coal’s scholarship program provides a great opportunity for local students to undertake a degree in engineering or business, whilst relieving some of that financial stress. As a former student, I encourage you to consider the University of Wollongong and the Hume Coal Corporate Scholarship for your tertiary studies”.
